

AMENDMENTS TO THE SPECIFICATION

In the Specification:

It has come to Applicant's attention that the amendment to the specification for the cross-references paragraph on page 1, lines 8-12, as filed on April 20, 2010, was inconsistent with the previous amendment to the specification made in the Preliminary Amendment filed concurrently with the U.S. national phase on December 23, 2005. Therefore Applicant withdraws the inconsistent amendment made on April 20, 2010, and requests reversion of the language of the specification to the language used for the cross-references paragraph as amended in the Preliminary Amendment of December 23, 2005.

Please replace the cross-references paragraph on page 1, lines 8-12, with the following paragraph, in order to revert to the paragraph as previously amended in the Preliminary Amendment filed concurrently with the U.S. national phase of the application on December 23, 2005 (shown with previous amendments of December 23, 2005):
